

SOIL AMENDMENT SCHEDULE

Location/Garden Bed: _____ | Year: 2024

PH Target: _____

TIMING	AMENDMENT TYPE	DOSAGE/RATE	PURPOSE / NOTES	DONE
EARLY SPRING	Compost / Organic Matter	2" Surface Layer	Improve structure and microbial activity.	
PRE-PLANT	Balanced Fertilizer (N-P-K)	As per soil test	Base nutrient load for heavy feeders.	
MID-SEASON	Fish Emulsion / Kelp	Liquid drench	Trace minerals and quick nitrogen boost.	
LATE SUMMER	Bone Meal / Rock Phos.	1/2 cup per plant	Encourage root strength and late flowering.	
FALL/WINTER	Agricultural Lime / Sulfur	Application Variable	Adjust pH levels (allow months to react).	
FALL/WINTER	Mulch / Leaf Mold	3" Layer	Erosion control and winter insulation.	

Notes:
