

CAR MAINTENANCE REFERENCE

Vehicle: _____ | Year: _____

| COMPONENT | INTERVAL (MILES/TIME) | ACTION REQUIRED |
|--------------------------------|----------------------------|--|
| Engine Oil & Filter | 5,000 - 7,500 miles | Replace oil and filter; check for leaks. |
| Tire Rotation | 6,000 - 8,000 miles | Rotate for even wear; check pressure. |
| Air Filter | 15,000 - 30,000 miles | Inspect visually; replace if dirty. |
| Brake Fluid | Every 2 years | Flush and replace fluid. |
| Coolant System | Every 30,000 miles | Flush system; check hoses for cracks. |
| Spark Plugs | 60,000 - 100,000 miles | Replace to maintain fuel efficiency. |
| Serpentine Belt | Inspect every 40,000 miles | Replace if fraying or cracking occurs. |
| Battery | Every 3 - 5 years | Test voltage; clean terminal corrosion. |

** Refer to your specific vehicle owner's manual for manufacturer-recommended intervals.*
