

VEHICLE MAINTENANCE GUIDE

YEAR / MAKE / MODEL [Vehicle Description]

VIN NUMBER [Identification Number]

CURRENT MILEAGE [Mileage]

DONE	SERVICE INTERVAL	MAINTENANCE COMPONENT	NOTES
	3,000 - 5,000 mi	Engine Oil & Filter Change	Check synthetic vs conventional requirements
	Monthly	Tire Pressure & Tread Depth	Rotate every 6,000 miles
	15,000 mi	Engine Air Filter	Replace more often in dusty conditions
	20,000 mi	Cabin Air Filter	Inspect for debris/airflow restriction
	30,000 mi	Brake Fluid Flush	Test for moisture content
	50,000 mi	Coolant System Service	Drain, flush, and refill
	60,000 mi	Transmission Fluid & Filter	Refer to manufacturer specific intervals
	100,000 mi	Spark Plugs & Ignition Coils	Inspect wires and boots for wear

Note: This guide serves as a general template. Always refer to your vehicle manufacturer's owner manual for specific maintenance schedules.
