

GEOGRAPHIC POPULATION DENSITY

Comparative Analysis Template

Date: _____
Reference ID: DATA-2024-X

REGION / TERRITORY	TOTAL POPULATION	LAND AREA (KMÂ²)	DENSITY (PPL/KMÂ²)
Example Region A	12,450,000	45,000	276.6
Example Region B	4,200,000	98,200	42.7
Example Region C	8,120,000	62,000	130.9

Notes: This chart is a visualization template. Density is calculated by dividing total population by land area. Shaded bars represent relative density compared to the highest entry in the dataset.
