

# SOUTHERN SKY MAP

SEASONS: AUTUMN / WINTER • 35 SOUTH LATITUDE

**N S E W**

CRUX (SOUTHERN CROSS)

CENTAURUS

CARINA

ORION (SETTING)

SCORPIUS

## **OBSERVATION NOTES**

Face South and hold the chart vertically. The Southern Cross (Crux) is highest in the sky during late Autumn evenings. The Pointers (Alpha and Beta Centauri) will be visible to the East of the Cross.

## **PRIMARY TARGETS**

♆ Carina: Home to Canopus, 2nd brightest star.

♆ Centaurus: Features the globular cluster Omega Centauri.

♆ Scorpius: Dominates the zenith in mid-winter.
