

WORLD ANNUAL PRECIPITATION INDEX

Global Climate Observations & Regional Rainfall Distribution

[World Map Visualization Area]

0-250mm (Arid)
250-750mm (Semi-Arid)
750-1500mm (Moderate)
1500-2500mm (Humid)
2500mm+ (Tropical)

Climatic Zone	Average Annual Rainfall	Representative Regions
Equatorial	2,000mm - 10,000mm	Amazon Basin, Congo Basin, Indonesia
Tropical Savanna	500mm - 1,500mm	Central Africa, Northern Australia
Arid / Desert	0mm - 250mm	Sahara, Arabian Peninsula, Atacama
Mediterranean	400mm - 900mm	Southern Europe, California, Perth
Polar	Less than 250mm	Antarctica, Arctic Circle

Data based on 30-year climatological averages. Generated for educational and reference purposes.
