

SOIL TEMPERATURE GUIDE

Optimal planting temperatures for vegetable seeds (Fahrenheit)

| Vegetable | Min Temp | Optimum Range | Max Temp |
|------------------|-----------------|----------------------|-----------------|
| Asparagus | 50F | 60F - 85F | 95F |
| Beans | 60F | 75F - 85F | 95F |
| Beets | 40F | 50F - 85F | 95F |
| Carrots | 40F | 45F - 85F | 95F |
| Corn | 50F | 65F - 95F | 105F |
| Cucumber | 60F | 75F - 95F | 105F |
| Lettuce | 35F | 40F - 80F | 85F |
| Peas | 40F | 40F - 75F | 85F |
| Peppers | 60F | 65F - 95F | 100F |
| Pumpkin | 60F | 70F - 90F | 100F |
| Tomato | 50F | 70F - 90F | 95F |

Note: Measure soil temperature at a depth of 2-3 inches in the early morning for best accuracy.
