

GLOBAL POPULATION PROJECTION

Forecasted Estimates: 2025 - 2100

Year	Est. Population	Annual Growth	Relative Scale
2025	8.2 Billion	0.87%	
2040	9.2 Billion	0.62%	
2060	10.1 Billion	0.33%	
2080	10.3 Billion	0.12%	
2100	10.4 Billion	0.01%	

Key Insights:

- Growth rate is expected to continue decelerating throughout the century.
- Median age is projected to increase from 30 to 42 years by 2100.
- Sub-Saharan Africa remains the primary driver of population increase.
