

INFANT SOCIAL SKILLS DEVELOPMENT

Milestone Tracking Template

AGE RANGE	SOCIAL MILESTONE	DATE / NOTE
0-3 Months	Begins to smile at people; briefly calms when spoken to or held.	
4-6 Months	Responds to other people's emotions; likes to play with others.	
7-9 Months	Shows preference for familiar faces; starts showing "stranger anxiety."	
10-12 Months	Shows fear in some situations; repeats sounds/actions for attention.	
13-18 Months	Explores alone but with parent close by; points to show things of interest.	

Note: This chart is for educational tracking purposes only. Consult a pediatrician for developmental concerns.
