

THREADING GUIDE

Embroidery Machine Reference Chart

Machine Model: _____

Thread Type: _____

Needle Size: _____

Date: _____

Spool Placement Place thread on spool pin and secure with the correct size spool cap.

Thread Guide A Pass thread through the first pre-tension metal guide hook.

Tension Disc Path Lead thread down into the tension channel, ensuring it seats between discs.

Take-up Lever Bring thread up and hook through the eye of the take-up lever (right to left).

Needle Bar Guide Pass thread through the final guide located above the needle clamp.

Needle Eye Thread the needle from front to back, or use the automatic threader.
