IL IAC CREST

ACETABULUM

PUBIC SYMPHYSIS

## Primary Components

- **Ilium:** Superior/largest portion of the hip bone.
- **Ischium:** Posteroinferior part (the "sit" bone).
- **Pubis:** Anteroinferior part meeting at the midline.
- **Sacrum:** Triangular bone at the base of the spine.
- **Coccyx:** The terminal "tailbone" segments.

## Key Landmarks

- **Sacroiliac Joint:** Link between spine and pelvis.
- **Obturator Foramen:** Large opening for vessels/nerves.
- **Ischial Tuberosity:** Weight-bearing point when seated.
- **Pelvic Brim:** Dividing line between true/false pelvis.
- **Anterior Superior Iliac Spine (ASIS)**
