## Key Rules

- **Additive:** Place a smaller value after a larger value to add them (e.g., VI = 5 + 1 = 6).
- **Subtractive:** Place a smaller value before a larger value to subtract it (e.g., IV = 5 - 1 = 4).
- **Limit:** Do not use the same symbol more than three times in a row (e.g., 4 is IV, not IIII).
