

# ROMAN NUMERALS CLOCK CHART

ONE O'CLOCK **I** 1

TWO O'CLOCK **II** 2

THREE O'CLOCK **III** 3

FOUR O'CLOCK **IV** 4

FIVE O'CLOCK **V** 5

SIX O'CLOCK **VI** 6

SEVEN O'CLOCK **VII** 7

EIGHT O'CLOCK **VIII** 8

NINE O'CLOCK **IX** 9

TEN O'CLOCK **X** 10

ELEVEN O'CLOCK **XI** 11

TWELVE O'CLOCK **XII** 12

## Quick Math Guide:

• **I** = 1 | **V** = 5 | **X** = 10

• Subtractive Principle: If a smaller value is before a larger value, subtract (e.g., **IV** = 5 - 1 = 4).

• Additive Principle: If a smaller value is after a larger value, add (e.g., **VI** = 5 + 1 = 6).
